CU Phosco Lighting undertake work for a vast array of clients including, local authorities, Highways England, Transport Scotland, community councils, NHS, housing associations, insurance repairs/ facilities. management contractors and many more.

We are committed to providing our clients with high quality products and services.

We are specialists in the installation and maintenance of all types of exterior lighting and street furniture including street lighting on trunk roads, motorways and town and city.

With over 30 years' experience we are able to provide a complete design, supply, installation and maintenance service with all works carried out by our own fully trained and qualified staff.

All relevant personnel are fully qualified in ERG39, ECS, HERS, NRSWA, SSSTS / SMSTS, CSCS and CPCS - as part of our rigorous training programme.

All of our installation team are registered on the Highway Electrical Registration Scheme (HERS), which meets the requirements of National Highways Sector Scheme 8 (NHSS 8) and are holders of the ECS HERS card.

All electricians are trained to 18th Edition and CU Phosco Lighting is a NICEIC registered company.

All MEWP (mobile elevated work platform) operators have received IPAF (International Powered Access Federation) training.

All lifting operations are planned and conducted by fully qualified CPCS trained employees.

CU Phosco are accredited members of HERS, CHAS, Achilles and Construction Line.
